12+	80+	BuildSync	~450
Years of experience	Digitalization opportunities documented	SaaS platform live on Android & iOS since 15 Apr 2026	Employees managed for Store department

PROFESSIONAL SUMMARY

Business Analyst and Digital Transformation professional with 12+ years of experience across construction and manufacturing, connecting operational teams with technology teams. Identified and documented 80+ organization-wide digitalization opportunities with Heads of Departments, presented them to senior leadership, supported discussions with 6 to 7 prospective technology partners, and was then assigned as Business Analyst for BuildSync, an in-house SaaS-based web and mobile platform for procurement, inventory and store operations (live on Android and iOS since 15 April 2026). Skilled in requirements gathering and documentation (BRD, FRD, SRS), UAT, business process analysis, operational excellence, solutioning for business problems, ERP (SAP S/4HANA MM), Power BI (DAX, Power Query), Power Automate and AI-assisted prototyping. Familiar with Agile methodology in SaaS products. Experienced in stakeholder management, change management and executive presentations to Senior Management, the Managing Director and Board-level forums.

CORE SKILLS

Business Analysis: Requirements Gathering, Requirements Analysis, BRD (Business Requirement Document), FRD (Functional Requirement Document), SRS (Software Requirement Specification), UAT (User Acceptance Testing), Business Process Analysis, Gap Analysis, Process Mapping, Process Improvement, Operational Excellence, Agile Methodology (Familiar, SaaS Products), Solutioning for Business Problems, SOP Development, Stakeholder Management, Business–IT Collaboration

Inventory & Store Management: ABC / FSN Analysis, Inventory Turnover Ratio, Stock Accuracy %, Minimum Stock Level, Safety Stock Management, Slow-Moving / Non-Moving Stock, Warehouse Management System (WMS), Inventory Optimization, Inventory Ageing Optimization, Bin Management, JIT (Just in Time), FIFO, LIFO, 5S Methodology

Digital Transformation: Digital Transformation, SaaS Platform Experience, Process Digitalization, Business Process Transformation, ERP Transformation, Digital Product Development, Change Management, User Adoption, Training & Enablement

Business Intelligence & Data: Microsoft Power BI, DAX, Power Query, M Language, Power Pivot, Advanced Excel, Data Modelling, Data Analysis, Dashboard Development, MIS Automation, KPI Reporting, SQL (Learning), VBA (Working Knowledge), Python (Fundamentals)

Automation & Systems: Microsoft Power Automate (Workflow Automation), SAP S/4HANA MM, Material Master Governance, ERP Systems

Generative AI & Prototyping: ChatGPT, Claude, Microsoft Copilot (workplace use); AI-Assisted Business Analysis, AI-Assisted Prototyping, Interactive HTML Dashboards, Requirements-to-Prototype Workflow

Domain: Inventory Management, Warehouse & Store Operations, Material Management, Procurement, Supply Chain Management, Vendor Management, Process Governance

PROFESSIONAL EXPERIENCE

H. G. Infra Engineering Limited | Jaipur — 09/2021 – Present

National highway construction company

Senior Manager | Lead – Business Analyst — 04/2025 – Present

- **Strategic Digital Transformation:** Nominated by management in August 2024 to identify digitalization opportunities across the organization; engaged HODs and cross-functional stakeholders and documented 80+ opportunities; presented the assessment to the Manager, IT Head, Managing Director and HODs; worked with management and IT leadership on discussions with 6 to 7 prospective technology partners, communicating business requirements and collecting proposals.
- **Business Analysis & Digital Transformation:** Lead business analysis, operational excellence and digital transformation initiatives in Store and Inventory Management, translating business problems into practical digital solutions and bridging business, technology, data and operations across construction projects.

- **BuildSync Digital Product:** Key business-side role in BuildSync, an in-house SaaS-based web and mobile platform digitalizing procurement, inventory and store processes; assigned as Business Analyst; worked with IT leadership, developers and project teams on requirement definition (BRD, FRD, SRS), UAT, validation, enhancements and adoption, including the Direct Procurement module (phase one) and business requirements for replacement weighbridge software. Platform live on Android and iOS since 15 April 2026. Business-side experience in SaaS product delivery.
- **Business Intelligence & MIS:** As MIS Coordinator, submitted MIS continuously for 3+ years; develop Power BI dashboards and analytical solutions using DAX, Power Query, M Language, Power Pivot and Advanced Excel for management insights, MIS automation and KPI reporting.
- **Process & SOP Transformation:** Develop and improve departmental SOPs with the Department Head, Head Office and project teams; participated in a detailed SOP transformation exercise with PwC.
- **Digital Learning:** Led business-side development of the organization's first 3D animated SOP learning module (Weighbridge process): storyboarding, scripting, Hindi adaptation, scenario development and coordination with an external 3D agency.
- **Workflow Automation:** Designed and implemented Microsoft Power Automate workflows to reduce manual effort, including an automated certificate-generation workflow (Forms, Excel, Word templates, PDF conversion and email distribution) used by the Learning & Development team for almost 100 participants across 5 to 6 Masterclass certification programs company-wide.
- **Leadership & Capability Development:** Lead manpower planning, deployment and role mapping for store teams of 200 to 400+ employees across projects; interviewed and hired hundreds of candidates during the last five years of tenure; managed approximately 450 employees for the Store department; conduct Advanced Excel training and Store & Inventory functional induction.
- **AI-Assisted Prototyping:** Use ChatGPT and Claude to explore business problems and build interactive HTML prototypes and dashboards (store manpower benchmarking, store month-closure review) to refine requirements and solution logic; validate outputs independently before use.
- **Executive Communication:** Present analytics, process improvement and digitalization initiatives to HODs, Senior Management, Top Management, Chairman and Board-level forums.

Manager | Lead – Business Analyst
04/2023 – 03/2025

- Worked with business and IT stakeholders to identify process gaps, digitalization opportunities and system requirements across Store and Inventory Management.
- Contributed to development and enhancement of digital solutions supporting procurement, inventory, store and project-site processes.
- Developed MIS and management analytics using Advanced Excel, Power Query, Power BI and DAX to improve operational visibility and decision-making.
- Supported ERP and Material Master improvements, translating operational requirements into system enhancements; drove process standardization and SOP development.
- Supported training, knowledge transfer and adoption of digital processes, dashboards and reporting solutions; conducted Advanced Excel training and delivered an HG Infra Masterclass (August 2023); presented insights to senior stakeholders.

Deputy Manager | Lead – Business Analyst
09/2021 – 03/2023

- Built inventory analytics covering Minimum Stock Levels, ageing, consumption and stock movement; developed MIS and analytical reports using Advanced Excel, Power Query and Power BI.
- Analysed business processes and identified system, workflow and reporting improvements; managed inventory and procurement while working with business stakeholders.
- Supported ERP and Material Master governance; coordinated with project sites and Head Office teams to standardize processes and improve implementation.

National Engineering Industries Limited (NBC Bearings) | Jaipur
01/2021 – 09/2021

Associate Manager – Procurement
01/2021 – 09/2021

- Managed subcontracting procurement for bearing races, negotiated commercial terms for new product development (ball bearings and taper roller bearings), and ran strategic sourcing and supplier reviews to protect manufacturing continuity.

Parshwanath Industries (Mahaveer Group) | Ajmer
07/2020 – 12/2020

Manager – Supply Chain Management
07/2020 – 12/2020

- Oversaw Purchase, Stores and Logistics; led procurement and vendor development; improved ERP effectiveness by defining processes for stocking, purchasing and logistics; trained SCM staff on system usage and reporting.

H. G. Infra Engineering Limited | Jaipur — 05/2016 – 05/2020

National highway construction company

Assistant Manager – Purchase — 04/2019 – 05/2020

- Managed store, inventory and MIS activities; developed inventory analytics (ageing, Minimum Stock Levels, consumption); worked on SAP MM processes, Material Master governance and physical versus book stock controls; prepared management presentations.

Senior Officer – Purchase — 04/2017 – 03/2019

- Managed procurement for project requirements, coordinating with vendors and internal stakeholders to ensure timely material availability.
- Supported vendor development, supplier coordination, purchase order processing and delivery follow-up; maintained procurement MIS and supplier performance tracking.

Officer – Purchase — 05/2016 – 03/2017

- Supported procurement activities for project requirements, including vendor coordination, purchase orders and delivery follow-up; assisted in resolving material availability issues with suppliers and project teams.

National Engineering Industries Limited (NBC Bearings) | Jaipur — 07/2014 – 05/2016

Purchase Engineer — 07/2014 – 05/2016

- Managed procurement, vendor development, negotiation and purchase order management for spare parts in a manufacturing environment.

KEY PROJECTS

- **Strategic Digital Transformation & BuildSync:** 80+ digitalization opportunities documented, executive presentations, technology-partner discussions and business analysis for an in-house SaaS-based procurement, inventory and store platform (buildsync.net); live on Android and iOS since 15 April 2026.
- **BuildSync Direct Procurement Module & Weighbridge Software Requirements:** Business requirements, UAT and validation with IT and development teams for phase-one procurement and replacement weighbridge software (hgtechnologies.in).
- **Power BI & Operational Analytics:** Dashboards and automated MIS covering inventory, consumption, ageing, Minimum Stock Levels, procurement and operational performance using Power BI, DAX, Power Query and Advanced Excel.
- **Power Automate Certificate Workflow:** Automated certificate generation and email distribution for Learning & Development, used for almost 100 participants across 5 to 6 company-wide Masterclass certifications.
- **SOP Transformation, Process Governance & 3D Digital Learning:** SOP development and standardization with department heads and teams across Head Office and projects; participated in a process exercise with PwC; led business-side development of the first 3D animated SOP learning module (Weighbridge process).
- **AI-Assisted Business Prototypes:** Interactive HTML prototypes and dashboards built with ChatGPT and Claude, including a configurable Store Manpower Benchmark and Store Month Closure review dashboards (prototypes for requirement refinement).

EDUCATION

B.Tech. in Mechanical Engineering | Rajasthan Technical University, Kota (Ajmer Institute of Technology, Ajmer) | 2010 – 2014

CERTIFICATIONS & TRAINING

- **ISO 27001:2022 Internal Auditor Training Program** – Quality Asia (12/2025)
- **RISE – Results Improvement & Sustainable Excellence Leadership Program** – Emeritus (Ongoing, 2026)
- **Excel Power Tools & Power BI** (Power Query, Power Pivot, Data Modelling) – Institute of Financial Studies, 40 hours (2022 – 2023)
- **Microsoft Power BI – The Practical Guide, 2023 Edition** – Udemy, 18 hours (02/2023)
- **Business Intelligence Using Power BI** – Skill Nation workshop (10/2022)
- **Python Fundamentals for Beginners** – Great Learning Academy (08/2024)
- **Diploma in Product Design** (AutoCAD & Creo 2.0) – CADD Centre, Ajmer (01/2014)
